

Mission:

GOIMEK aspires to continue being a benchmark cooperative company in complete part machining solutions that require high levels of accuracy and quality.

We seek the satisfaction of our customers as a means of achieving sustainable and profitable growth, thus responding to the expectations of the DANOBATGROUP cooperatives and those of the people at GOIMEK.

We will achieve it with people with a corporate identity who are committed to the development of GOIMEK, the DANOBATGROUP and MONDRAGON, which share the objective of generating lasting and sustainable wealth and employment in the Basque Country.

Vision:

To be the strategic machining solutions provider for the DANOBATGROUP parts through the development of joint projects for the improvement of competitiveness and, moreover, to work for other customers and sectors to obtain satisfactory profitability levels as a result.

For this, we will consolidate a unique socio-business project with an organisational model that maximises internal efficiency and is consistent with the values of DANOBATGROUP and MONDRAGON.

Values:

Commitment
Because we are involved as workers and partners of the company that we are.

Internal and external customer orientation
Because by knowing the needs of the customer, we can provide the best solutions.

Innovation, openness to change
Because the world evolves continuously, and we are prepared and open to change.

Teamwork and cooperation
Because to share knowledge and wealth is the basis of sustainability

Trust
Because we are dependable and consistent with the decisions that we make.

Positive attitude
Because we have the enthusiasm and spirit to succeed and we see the positive side of everything.

For the achievement of our mission, we consider the Health and Safety of our partners and employees, the quality of our service and the protection of the environment to be very important. For this, it is essential to develop and implement an Integrated Safety, Quality and Environmental Management system that enables the achievement of the following objectives (commitments):

- To identify the expectations of our customers.
- To actively contribute to the professional and human development of our partners and employees.
- To protect and improve Health and Safety of people by providing safe and healthy working conditions to prevent injury to health through the elimination of hazards and the reduction of risks.
- To consult and involve the workers in the management of Health and Safety at work.
- To prevent pollution and protect and improve the environment by developing actions intended to reduce greenhouse gas emissions and save natural resources.
- All the actions will be developed in accordance with current legislation and regulations that are applicable to the activity of our company and other requirements to which the organisation subscribes.

We are taking on this significant effort that the achievements of these commitments requires through continuous improvement by providing the necessary and competent human resources, as well as the appropriate financial and material resources for the established improvement objectives and processes.
